### **Leave No Trace Principles:**

1. Plan Ahead and Prepare: "Know before you go!" Learn everything you can about the area you plan to visit and the regulations for its use.
2. Travel and Camp on Durable Surfaces: Use established campsites and trails, where available. Avoid sites just beginning to show impacts. Keep camps small and at least 200 feet from water, occupied campsites, and trails.
3. Dispose of Waste Properly: "Pack it in, pack it out!" Bury human waste in a cathole 6-8 inches deep and at least 200 feet from water. Wash yourself and your dishes at least 200 feet from water.
4. Leave What You Find: Do not damage, deface, or remove natural objects or cultural artifacts. Leave them for others to enjoy. Don't build structures, dig trenches, or alter natural features.
5. Minimize Campfire Impacts: Use a lightweight stove, instead of a fire. If you build a fire, use only small dead wood found on the ground and use existing fire rings.
6. Respect Wildlife: Watch wildlife from a distance and never approach, feed or follow it. Seal food tightly and store it out of reach. Control pets at all times or consider leaving them at home.
7. Be Considerate of Other Visitors: Don't disturb others. Preserve the natural quiet. When you meet horses on the trail, step off the downhill side and speak softly as they pass.

**Please initial that you have read and will abide by these principles while in our camp.**
